In 1973 when I bought my mobile home from Campbell Enterprises - I questioned the life time and durability of this home - and perhaps doubted the answers!

Ten years have passed and I'm so happy I made this purchase. It's unbelievable how my home has endured. Why it's good for another 10 years or even more!!

Buying a mobile home at Campbell Enterprises has indeed proven to be a **Good Investment.**

Alone With God

When he had sent the multitudes away, he went up into a mountain apart to pray; and when the evening was come, he was there alone. Matt. 14:23

Jesus had been under a terrific strain. He made His way to a desert place. A multitude followed Him. They became hungry for food there were only five loaves and two fishes. The miracle feast took place, then Jesus sent the multitude - away - At last Jesus was alone, and He sought what was most important to Him - communion with the heavenly Father. He went up into a mountain to pray - and He was there alone. Yet He was not alone. No one is really alone when he is in communion with God.

His example of being with God is an invitation to each of us to follow the same plan. Are you discouraged? This is the time find your mountain to be alone with God. As you commune with Him He will send "His Holy Spirit" to strengthen you.

Father, fill me with thy power
As I kneel with Thee this hour;
Just enough to meet this day
As I walk in Thy sweet way.
God, alone - I'll never be -
When I walk life's way with Thee;
And Thy path is always
Straight
Leading me to heaven's gate
Though the wrong seem e'er so strong;
Not alone when Thou art near
By Thy side I'll never fear.
Always let Thy glory shine
Through this worthless life of mine
By Thy Spirit we are one,
Not alone. I am Thy Daughter,
or Thy Son

What a beautiful way to begin the day. Alone with God! Even in the family circle we can be alone with Him. Let's try it now! Thy daughter, or Thy son

Sent in by Mrs. Annie R. Fore, PR Secretary for Appo. S.D.C. Church on Court Street - All are "Welcome".

TIPS ON QUITTING CIGARETTES

Pick a Q (Quit) Day.

Switch to a low tar-nicotine brand, and begin to cut down BEFORE Q Day.

3. Keep a supply of substitutes handy: mints, gum, celery, carrot sticks.

4. Quit on Q Day; use substitutes when the urge to smoke is strong; keep busy; pamper yourself with special meals; drink plenty of water; exercise.

5. Renew your resolve daily. Think over the health hazards of cigarettes.

6. Plan a treat for yourself with the money you used to spend on cigarettes.

BEST TIP YET: DON'T START!

Am I Covered

Q - I have recently learned that my homeowners policy does not provide coverage against floods, but that flood insurance is available under a separate policy. Can you tell me something about this and what is the cost?

A - The National Flood Insurance Program is a joint venture between insurance companies and the Federal Government. The governing body of a given locality must apply to the Federal Insurance Administration under the Department of Housing and Urban Development to have flood insurance sold in its area. The locality must also adopt certain building codes and a development plan with enforcement provisions to lessen future losses. At present, 47 Virginia localities are under either the Emergency Program or the Regular Program. When an area initially obtains eligibility for the flood program it is placed under the Emergency Program both residential and non-residential property may get coverage. But the coverage is limited to $17,500 for a single family dwelling, $30,000 for a multi-family dwelling and non-residential structures, & $5,000 for contents per occupant family or tenant. Rates are based on the actual cash value of the structure and per $100.00 of coverage. If the value of the single family structure is $17,500 or less the rate is 25c on the building and 35c on the contents per hundred; $17,500 to $35,000 is 30c and 40c; over $35,000 is 35c and 45c. For commercial structures the rates are from 40c to 60c and 75c on the contents, depending upon the value of the building. There is a $200 deductible on each loss for the structure and for the contents. When a locality goes under the Regular Program coverage doubles, but the rates vary according to the risk.

A flood is defined as "A general and temporary condition of partial or complete inundation of normally dry areas." Three types of losses are covered:

(1) The overflow of inland or tidal waters.

(2) The unusual and rapid accumulation or runoff of surface waters from any source.

(3) Mudslides which are caused or precidpitated by accumulations of water on or under the ground.
